**Subject:** Microsoft Settlement

I understand that the Justice Dept. is taking public comments regarding the proposed settlement of the Microsoft monopoly case.

It is my opinion that the proposed settlement is probably about as fair as it is going to get. I further feel it is in the intrerest of our Country and of the consumers of Microsoft products to have this controversy settled now--rather than to drag on for an indefinite period.

So I am in favor of the Justice Dept. accepting the settlement as it now stands.

Thank you for carefully considering my opinion.

Harold Levinger
